

# Palm Perfect™

## All Purpose Palm Tree Fertilizer

# 50 lbs. (22.68 kg)

### Guaranteed Analysis 8-2-12

Total Nitrogen (N).....	8.00 %
0.78 % Ammoniacal Nitrogen	
3.22 % Urea Nitrogen	
4.00 % Slowly Available Water Soluble Nitrogen	
Available Phosphate (P <sub>2</sub> O <sub>5</sub> ).....	2.00 %
Soluble Potash (K <sub>2</sub> O).....	12.00 %
Calcium (Ca).....	13.82 %
Magnesium (Mg).....	3.00 %
Total Sulfur (S).....	7.10 %
7.10% Combined Sulfur (S)	
Total Iron (Fe).....	1.00 %
Manganese (Mn).....	1.00 %

### Plant Nutrient Sources:

Urea, Polymer Coated Urea, Urea, Diammonium Phosphate, Muriate of Potash, Sulfate of Potash, Sulfate of Potash-Magnesia, Manganese Oxide, Iron Oxide, Calcium Carbonate

Chlorine (Cl), Not more than..... 2.00 %

### APPLICATION RATE:

Apply 1.5 lbs. or .6 kilos per 100 feet of tree canopy three times a year.

To determine the canopy size of your tree, measure from the trunk to the farthest tip of the leaves and draw an imaginary square around the trunk. This measurement is called the drip line, which is how far out from the trunk rainwater drips off the leaves. If the square measures 10ft x10 ft., then the tree canopy is 100 sq. ft., which would require 1.5 lbs. of fertilizer for each feeding.

The three times to fertilize are at the start of spring, mid-summer and at the beginning of fall. An example would be March, June, and Sept.

### CONTAINER DISPOSAL

Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

### CAUTION: Keep out of reach of children

Harmful if swallowed. Avoid contact with skin, eyes and clothing. Causes eye irritation. Avoid breathing dust particles. Wash hands thoroughly after using. In case of eye contact, flush eyes with water for at least 10 minutes and get medical attention.
