Agronomic Program

First Spring Irrigation

Root Driver	1.4 qts./acre
Carbon Karma	0.5 qts./acre
Potassium Carbonate	10 lbs./acre
Nitrogen	grower standard

Soil application.

Repeat 30 days after first application.

At 20%-50% Bloom

Ultimate	2 qts/acre
P&K+	2 qts/acre

Foliar application. Mix with 10-20 gallons of water per acre.

Repeat with two more applications timed 10-14 days apart.

Late August/Early September

P&K+	2 qts./acre
-----------------	--------------------

Foliar application. Mix with 10-20 gallons of water per acre.

Before Leaf Fall

P&K+	2 qts./acre
Zinc	3/4 lb./acre
LoBi Urea	5 lbs./acre

Foliar application. Mix with 10-20 gallons of water per acre.

Fall Root Flush

Root Driver	1.4 qts./acre
Carbon Karma	0.5 qts./acre
Potassium Carbonate	10 lbs./acre

Soil application.

Repeat 30 days after first application.

Program for Early Freeze/Stick Tights

P&K+	2 qts./acre
-----------------	--------------------

Foliar application. Mix with 10-20 gallons of water per acre.

Apply during first week of Sept. and second week of Oct.

This treatment took stick tights from 35% to less than 5% where there had been a frost incident.

Performance Solutions

Root Driver™

Root Driver provides not only economical benefit, but satisfies most phosphorus environmental regulations relating to pounds per acre, while still meeting or exceeding the plants' needs.

Carbon Karma™

The unique formulation of plant-available short and long chain carbons and protein nutrients in **Carbon Karma** are vital for enhancing microbial activity and maximizing plant growth potential.

Ultimate™

The unique combination of essential nutrients, sugars and amino acids in **Ultimate** provides plants with the nutrition necessary for more consistent maturation and increased productivity.

P&K+™

The complexing and chelation of **P&K+** with Humic, Fulvic and Amino Acids assures effective nutrition to aid in photosynthesis, root strength and increased protein production.
