

Turf Pre-Plant Program

All Grasses

- 1- Organic Fertilizer – 1 Bag Per 2,000 sq. ft.
- 2- High Cal Pelletized Lime – 1 Bag per 3,000 sq.ft.
OR, Solu-Cal – 1 Bag per 5,000 sq. ft.
- 3- Humic Acid – 1 Bag per 10,000 sq. ft.

This program helps young turf get established in our sandy coastal environment. This is accomplished by providing a slow release nutrient source in the 3-4-3 organic. The lime will adjust the soil PH. The greens grade humates will increase the soil CEC, and help hold the nutrients in the soil.

***Notes**

- All of our synthetic fertilizers are custom blended to match our sandy loam coastal environment.
- G E O Z oysia needs a PH between 6 – 7.
- Bermuda turf requires more nitrogen than most varieties of turf.
- All products available at Gulf Coast Organic, Inc. in Foley, AL.
